

# KSI Spring Term Homework

Please aim to read with your child daily, as well as logging into Numbots regularly.

The ideas on the grid below are linked to our topic newsletter. Here are some activities you could do for the project. We would like the children to follow their interests and be as creative as they like, so these are simply ideas and the possibilities are extensive.

English - Non Chronological Reports (Fact Files)	Science - Animals	Geography - Weather	History - Schools in the past
Write a fact file about your favourite animal. Can you find out what it eats, what body parts it has and some fun facts? Your fact file needs a main heading and subheadings e.g. 'All About Tigers' 'Diet' 'Appearance'		Weather Diary Record the weather over the term using symbols.	Talk to a parent or grandparent about their school days and draw or write things they remember.
RE - Hindu Dharma	PR SHE - Keeping Myself Safe	Art - Weaving	DT - Joining
Within our RE, we are learning about devotion. This could be to a football team, a hobby. Could you make a poster about something you are devoted to? This could be a scrap book style or drawn pictures.	Draw and label people who keep us safe (police, doctors, teachers, parents).	Can you practise weaving with paper, wool or ribbon? You can wrap and weave around cardboard, bicycle wheels, sticks or something you may think of yourself!	Can you practise a running stitch, whip stitch or other kinds of joining techniques?

Completed homework projects can be sent into school, or emailed to your class:
